

1. People in Ifelodun Area of the Irepodun/Ifelodun Local Government have to pass through two (2) different local government areas to transact official business at Igede Ekiti, the head quarters of the Local Government

I humbly appeal to Your Excellency that while making ways to present this problem to the Federal Government as Protocol demands, I will appreciate your approval of assisting the caretaker committee Chairman of Irepodun/Ifelodun local government to make the subordinate area office local government at Igbemo effectively functional.

Once again I am very grateful for the laudable and unprecedented welfare package, honour and regard accorded the Obas by the Ekiti State Government. Peace shall continue to reign in the State by God's Grace. I will like to hint you on the plights of the quarter Heads in my domain. Igbemo Ekiti is made up of three (3) Quarters, namely (a) ORUN Quarter (b) URO Quarter (c) ODO IGBEMO Quarter. Though the quarter heads are subjects to the Oba, each of them controls population and generate revenue larger than some of the neighboring towns. As tradition does not permit fragmentation of land I believe the Government can make provision for the Quarter Heads to appreciate them and make them relevant to a level.

I mention this problem today because I want the government to be very cautious in entertaining any move from any quarter to fragment Igbemo-Ekiti as it is only UNITY that can bring PEACE and then PROGRESS TO EKITI STATE.

Finally, I call on all the Quarter Heads, kingmakers, chiefs and all the people in Igbemo to join me to shout one loud HALLELUYAH to honour all the members of "OBASHIP" COMMITTEE. The full list of the members is contained in this programme.

They have devoted their faith, lives, love, time and material wealth for Igbemo to make this day a reality. You have made Igbemo great; God will honour you and make you great fore ever.

Please sing along with me...
Igbemo yi ti gbogbo wa ni...
